ABOUT ME

Motivated and detail-oriented fresher with a strong foundation in HTML, CSS, JavaScript, and Python. Possess basic knowledge of AI concepts and a keen interest in technology and problem-solving. A quick learner with good communication, teamwork, and leadership skills. Seeking an opportunity to start my professional career and contribute effectively while continuously learning and growing.

EDUCATION

Bachelor of Engineering

2022-2026 | 7.9CGPA

Computer Science Engineering

Prathyusha Engineering College

SKILLS & TOOLS

- HTML5
- CSS3
- JavaScript
- React.js
- AI&ML
- Java
- Figma
- Workday
- VS Code
- Canva

WORK EXPERIENCE

BS Gateway | Dec 2025 - Present

Machine Learning Intern

- Developed a machine learning-based crop recommendation system using soil nutrients (N, P, K), pH, temperature, humidity, and rainfall data.
- Performed data preprocessing including cleaning, normalization, and train-test splitting to improve model performance.
- Implemented and compared multiple supervised algorithms such as Decision Tree, Support Vector Machine, and Random Forest.
- Achieved highest prediction accuracy using Random Forest model through ensemble learning techniques.
- Evaluated models using accuracy metrics and performance analysis to select the optimal classifier.
- Designed a simple and user-friendly interface for real-time crop prediction.
- Enabled data-driven agricultural decision-making to improve yield and optimize resource utilization.

PROJECTS

Fitness Tracker

- Designed and developed a responsive Fitness Tracker web application using HTML, CSS, and JavaScript.
- Built interactive features to log workouts, track daily activities, and monitor progress.
- Implemented dynamic updates using JavaScript for real-time data display and user input handling.
- Created clean and structured UI with strong visual hierarchy for better data readability.
- Designed dashboard-style layout to display fitness metrics in an organized format.
- Ensured responsive and cross-device compatibility for seamless user experience.

Personal Portfolio

- Designed and developed a responsive Personal Portfolio website using HTML, CSS, and JavaScript.
- Built interactive sections to showcase projects, skills, certifications, and contact information.
- Implemented dynamic features using JavaScript for smooth navigation, animations, and user interactions.
- Created a clean and modern UI with strong visual hierarchy to improve readability and engagement.
- Designed a portfolio-style layout to present professional details in an organized and structured format.
- Ensured full responsiveness and cross-device compatibility for a seamless user experience across devices.

CERTIFICATE

- Machine Learning Intern – BS Gateway– 2026
- UI/UX Intern – Codec Technologies– 2025

EXTRA-CURRICULAR ACTIVITIES

- Volunteer in community service initiatives
- Coordinated sports activities and team events
- Assisted in organizing social and cultural events
- Passionate about travelling and exploring new places
